LOCATION.

The Illinois Wesleyan University is located at Bloomington, Illinois; in a healthful and delightful region of country, and near the geographical centre of the State. Bloom- is connected with the river, at Peoria, distant 40 miles, by stage route, and is a point on the route of the Illinois Central Rail-road. Our inland position, the enterprise and intelligence of the community, the high tone of morals among us, and the remarkable healthfulness of our city and vicinity, all indicate the judicious location of the University.

PATRONAGE.

The Illinois Annual Conference of the Methodist Episcopal Church formally recognises the University as under its patronage, and at each session appoints a Board of Visitors to represent the Conference in the Board of Trustees.

LIBRARY & CABINET.

The Library consists of about 1000 volumes, the donations of the friends of the Institution: and there are on the shelves of the Cabinet about 1700 specimens. It is intended to greatly increase the value of the Library and Cabinet during the ensuing year.

APPARATUS.

The Philosophical and Chemical Apparatus and Chemicals are new and valuable, having been selected with care from the extensive catalogue of Messrs. Chamberlayne and Ritchie, Boston, and the Messrs. Carpenter, Philadelphia; and they afford ample facilities for the illustration of the Natural Sciences.

LECTURES.

An Arrangement has been made by which Public Lectures will be delivered in the chapel once a week, during the ensuing year, by the members of the faculty, assisted by several professional gentlemen of the city.

RELIGIOUS INSTRUCTION.

Prayers, with reading of the Scriptures, are attended in the chapel, by every student, morning and evening of every day, except on Saturday and Sunday, when the evening service is omitted. The students are also required to attend public service twice on the Sabbath, at such church as the Faculty understand to be preferred by parents or guardians. There are in the city seven houses of religious worship, belonging to as many different denominations.

QUARTERLY REPORTS.

Daily Records of the proficiency of each student, and of his deficiencies, are made and forwarded, with the statement of his general deportment, at the close of each quarter, and at other times if desired, to his parent or guardian.

COURSE OF STUDY.

In order to meet the wants of our times, two courses of study are arranged, and left optional with the student.

The course of study in the *Scientific* Department is arranged with reference to the wants and wishes of a large class of young men whose time, or means, or other circumstances do not admit of their pursuing the regular collegiate course. The object of it is thoroughly to prepare young men for teaching, or for business pursuits, by a thorough course of useful and systematic training. It embraces all the studies of the collegiate course except the Ancient Languages; and upon its successful completion the student is entitled to the Degree of "Bachelor of Science and English Literature." After leaving the Preparatory Department it may be completed in two years.

The course of *Collegiate* Study is, in the main, the same as is pursued at the oldest and best colleges in the United States. After the Preparatory studies, the completion of the course requires four years, and entitles the student to the Degree of "Bachelor of Arts." This course is the only reliable one for making sound, practical, and accomplished scholars.

THE GERMAN LANGUAGE.

Arrangements have been made by which the services of an accomplished teacher of the German Language can be secured as soon as there may be a demand for such instruction.

TEXT BOOKS.

All the text books used in the University can be obtained, at low rates, in this city.

BOARDING.

Boarding may be obtained in the city for from $1 50 to $2 00 per week. This charge includes room rent, furniture, and fuel, but does not include washing or lights. Many young men greatly lessen their expenses at college by boarding themselves, which can be done for from 60 to 80 cents per week. Others accomplish the same object by laboring a part of each day or each week. This plan profitably occupies the student's vacant hours, and affords him healthful exercise. The Faculty desire to encourage such praiseworthy effort, and the rapidly progressing improvements of all kinds, in the city, furnish an abundant demand for all kinds of labor.

VACATION

Extends from the Commencement Exercises to October following, embracing twelve weeks. Our climate and the prevalent occupations of the country unite to indicate the propriety of having all the vacation time occur in the summer months.

THE ACADEMICAL DEPARTMENT

Will be under the immediate supervision of the Faculty, assisted by such Tutors as may be necessary to accomplish the work. It is preferred that students preparing for the college classes would make their preparation here rather than perpare elsewhere for an advanced standing. If we must be responsible for the final credentials of the scholar we would prefer laying the foundation of his scholarship.

PRE-PAYMENT.

Tuition bills are to be paid quarterly before the student's name is recorded on the class-books, and tuition fees are only refunded in cases of protracted sickness.

COLLEGE EDIFICE.

It is the purpose of the Trustees to commence, next year, the erection of a New College Edifice. For the present the basement of the M. E. Church is used for recitation rooms and chapel. One hundred and fifty Students can be accommodated with the conveniences we now have, and as soon as necessary additional rooms will be obtained for recitation.

GOVERNMENT.

The laws of this Institution are few and simple, but are sufficient to secure quiet and order. The object of instruction will be to form correct mental and moral habits, and to cultivate a taste for intellectual pursuits.

Punctuality in attendance at all college exercises, and careful observance of study hours, and gentlemanly deportment, are required of every Student. Visits of pleasure, gathering in groups, taking amusements on the sabbath day — absences from rooms at improper hours, or unpermitted absences from town — writing upon or defacing the furniture or rooms of the college or of other public buildings — wearing fire-arms or other weapons — drinking intoxicating liquors, or keeping them except by the prescription of a physician — contracting debts without the knowledge or consent of parents or guardians — using obscene or profane language — refusing compliance with any requirement of the Faculty — and all other breaches of morals or good order or violations of gentlemanly demeanor are strictly and totally forbidden.

No student who occasions trouble in any of these particulars shall be suffered to remain to exert on others his corrupting influence.
